

Your Source for Custom Control Panels

Tech Panels & Controls (TP&C) is your full service facility for engineering and fabrication of custom electrical control panels. We also offer UL Listed control panels for the US and Canada. We design and manufacture motor control and process control panels for a wide variety of industries. TP&C can engineer and provide a complete turn-key control system or provide a system per your specifications.

TP&C will provide you with the highest quality industrial control products and services at the best competitive prices. This is our promise to our customers.

Industries Served:

- Power Distribution
- Waste Water Treatment Plants
- Distribution Conveyor Systems
- Pharmaceutical Controls
- Process Instrumentation Controls
- Pump and Compressor Controls
- Weight & Batch Control Systems
- Flexible Screw Conveyor Controls
- Belt and Elevator Conveyor Controls

Services Available:

- Control System Design/Engineering
- Custom Control Panel Fabrication
Including: Custom Enclosures
Laser cut fabrication
Custom paint finishes
- Full AutoCAD Documentation
- PLC Programming
- GUI and HMI Programming
- Customer Supervised Testing
- Startup assistance
- Technical Support (via phone or remote modem)
- UL Listed Control Panels for US and Canada

TP&C can accommodate almost every control requirement. If you require a service that is not listed, we will do our best to provide for your every control need.

TP&C History:

Tech Panels & Controls is the industrial control panel division of Tech Conveyor, Inc. Tech Conveyor, Inc. has been specializing in providing turn-key material handling, parcel manifesting, and computer controlled conveyor systems for the product distribution industry for over twenty years.

The Tech Panels & Controls division is comprised of a group of dedicated and professional individuals who take great pride in the level of detail, accuracy and quality they build into each control system. With an average of over fourteen years of panel design and building experience, Tech Panels & Controls will provide the quality control panels and support you require, on time and on budget.

TP&C Products:

Tech Panels & Controls can provide for projects of any size, from simple control stations or electrical assemblies to multi-door custom control panels. At Tech Panels & Controls, we take pride in offering timely responses to panel quote requests and accurate estimates on delivery. Tech Panels & Controls offers the following standard manufactured components and can also use customer specified or supplied nonstandard hardware and components.
